1	Summary of Accomplishments	1
1.1	System Block Diagram	1
1.2	Consultations	2
1.3	CAD work	2
2	Next Week	2

1 Summary of Accomplishments

1.1 System Block Diagram

The group met to discuss research into various subsystems according to the previously established labor division, and produced a block diagram roughly defining subsystem interconnections.

1.2 Consultations

The group also contacted professor Andrew Gouldstone, setting a meeting Wednesday to discuss mechanical aspects of the project, and set a meeting with professor Padir the following Wednesday

1.3 CAD work

A STEP drawing of a use-case conversion wheelchair was produced in Solid-Works, to aid in analysis of weight distribution and the development of a retrofitting process.

2 Next Week

The group plans to meet with Taskin Padir, and spend a considerable amount of time developing and practicing our proposal presentation.
